A lateral radiograph (X-ray) of a horse's lower leg and hoof. The image shows the distal end of the radius and ulna, the cannon bone (third metacarpal), and the pastern bones. The hoof capsule is visible at the bottom. The bones are well-defined against a dark background. A small, dark, irregularly shaped object is visible near the base of the cannon bone, possibly a foreign body or a lesion. The overall image is in grayscale.
